WHOLESALE TRADE LIST

FALL 1962 — SPRING 1963

U.S. DEPARTMENT OF AGRICULTURE

FALL PLANTING

There has always been arguments for and against fall planting. We will say this however, more and more of it is being done every year. It gets the job done and out of the way and we all know how easy it is to delay our planting in the spring until it is too late. Trees planted in the fall benefit by the cool, usually moist weather, during which to become established. The hazards of a hard winter following fall planting are no greater than the hazards of a hot dry summer following spring planting. Fall planted trees also make more growth the first year than do spring planted trees. Try it!

NEWS FOR YOU

We are usually thought of in the trade as a grower of Evergreen lining out stock only. This is no longer true. For the past ten years or more we have been accelerating our growing of a larger list of deciduous lining out stock, especially in such species as maple, birch, viburnum, cornus, cotoneaster, eunonymus, alpine currant and many others. (Unfortunately we are already sold out in alpine currant for this year, so you will not find it listed - we will have it again next year). You will find many of the better varieties of deciduous liners offered in this list.

★ **RATES**

25 of same size and variety earns 100 rates, 250 of same size and variety earns 1000 rates. If less than 25 trees of same size and variety are ordered, add 20% to 100 rate.

★ **TERMS**

Cash with order earns 3% discount. To established credit 1%-10 days from date of invoice. All accounts due 30 days from date of invoice.

12-18 in. X	30.00	

BITTERSWEET

	100	1000
3-6 in. 1 yr. sdlg.	15.00	75.00
6-9 in. 2 yr. sdlg.	17.00	85.00
9-12 in. 2 yr. sdlg.	19.00	95.00

BIRCH, WHITE

(Betula Papyrifera)

Most white or canoe birch in clumps on the market today are collected. Ours are nursery grown under controlled conditions. With intensive watering and fertilization all sizes listed below are only 1 yr. plants. The demand for our birch clumps and singles is much greater than we can supply, so order your needs now. We are already better than 60% sold out.

	10	100
3 stem clumps		
12-18 in 1 yr. transplants	4.75	40.00
18-24 in. 1 yr. transplants	7.50	55.00

Evergreen Nursery - Sturgeon Bay, Wisconsin

EVERGREEN LINERS

THE FOLLOWING ITEMS WE HAVE IN LIMITED SUPPLY AND HAVE INDICATED THE QUANTITY AVAILABLE.

DECIDUOUS LINERS

DOGWOOD BAYLEYS

(cornus bayleyi) One of the better red-twiggged dogwoods.	<u>100</u>	<u>1000</u>
2-3 ft. X	50.00	350.00

DOGWOOD, GRAY

(cornus paniculata)		
9-12 in. 2 yr. sdlg.	12.00	60.00
12-18 in. 2 yr. sdlg.	17.00	85.00
18-24 in. 2 yr. sdlg.	19.00	95.00
2-3 ft. 3 yr. sdlg.	25.00	

DOGWOOD, YELLOW TWIGGED

(cornus stolonifera flaviramea)		
3-6 in 1 yr. sdlg.	12.00	60.00

CRATAEGUS CRUSGALLI (cockspur hawthorn)

3-6 in. 1 yr. sdlg.	20.00	
---------------------	-------	--

CRATAEGUS PUNCTATA (dotted hawthorn)

3-6 in 1 yr. sdlg.	16.00	
9-12 in. 2 yr. sdlg.	24.00	
12-18 in. 2 yr. sdlg.	30.00	

CRATAEGUS TOMENTOSA (Pear hawthorn)

9-12" 2 yr. sdlg.	14.00	110.00
12-18" 2 yr. sdlg.	19.00	160.00

CRATAEGUS MOLLIS (downy hawthorn)

3-6 in. 1 yr. sdlg.	12.00	106.00
9-12 in. 2 yr. sdlg.	18.00	160.00
12-18 in. 3 yr. sdlg.	24.00	200.00

EUONYMUS ALATUS (Burning bush)

The euonymus family provides the landscape trade today with some of their best and most desirable plants. This has varieties from semi evergreen ground covers to large growing specimen shrubs. The alatus is known for its brilliant crimson fall color.

6-9 in. 2 yr. sdlg.	12.00	80.00
9-12 in. 2 yr. sdlg.	18.00	160.00
12-18 in. 3 yr. sdlg.	22.00	200.00

Continued

EUONYMUS ALATUS COMPACTA

These have been grown from cuttings and are the true dwarf strain. Brilliant red fall color

	<u>100</u>	<u>1000</u>
2-4 in. X	12.00	60.00
4-6 in. X	16.00	90.00
6-9 in. X	20.00	120.00
9-12 in. XX	35.00	
12-18 in. XX	45.00	

EUONYMUS VEGETUS

Semi evergreen, growing either as a vine or shrub. Leaves heavy, light green and leathery.

2-4 in. X	16.00
4-6 in. X	20.00
6-9 in. X	25.00

FORSYTHIA, LYNWOOD GOLD

4-6 in. X	9.00
6-9 in. X	14.00

FORSYTHIA, SPRING GLORY

6-9 in. X	14.00
9-12 in. X	16.00

HAZELNUT (corylus americana)

3-6 in. 1 yr. sdlg.	16.00
12-18 in. 2 yr. sdlg.	35.00

HONEYSUCKLE (Red tartarica)

6-12 in. 1 yr. sdlg.	8.00	60.00
12-18 in. 2 yr. sdlg.	12.00	80.00

FERNS

Also known as Ostrich Plume fern. One of the best of the hardy fern. Perennial. Ideal for shady spots and secluded nooks. Our roots are all No. 1 grade, - large and husky. Make an excellent over the counter winter item to sell, as many people pot them and plant inside.

No. 1 Roots \$15.00 C \$140.00 M

NINEBARK - DWARF

(Physocarpus opulifolius nana)

Dwarf form. A heavy grower making an excellent specimen plant or an attractive hedge. Shears very well and recognized as one of the best hedge plants. Attractive foliage and flowers in June, followed by showy red pods.

	<u>100</u>	<u>1000</u>
6-9 in. X	8.00	
12-18 in. X multistem	20.00	120.00
18-24 in. X <u>heavy</u>	25.00	
2-3 ft. X <u>heavy</u>	30.00	

QUINCE, JAP. FLOWERING

(Chaenomeles lagenaria)

Attractive red flowers in early summer. Also a good hedge plant.

6-9 in. 2 yr. sdlg.	7.00	35.00
9-12 in. 2 yr. sdlg.	9.00	45.00
12-18 in. 2 yr. sdlg.	12.00	60.00

QUINCE, DWARF FLOWERING

(Chaenomeles lagenaria pygmy)

Excellent dwarf flowering shrub. Blooms at same time as regular quince. Fills today's need for a good dwarf shrub.

3-6 in. 1 yr. sdlg.	7.00	35.00
6-9 in. 1 yr. sdlg.	9.00	45.00

RUSSIAN OLIVE

(Eleagnus angustifolia)

A sturdy, hardy large shrub or small tree. Silvery leaves and fragrant flowers with silvery yellow fruit in fall. An excellent background or specimen plant.

3-6 in. 1 yr. sdlg.	4.00	20.00
6-9 in. 1 yr. sdlg.	5.00	25.00
9-12 in. 2 yr. sdlg.	6.00	30.00
12-18 in. 2 yr. sdlg.	8.00	40.00
18-24 in. 3 yr. sdlg.	11.00	55.00

Evergreen Nursery Co, Sturgeon Bay, Wis.

SORBUS AUCUPARIA

(European Mountainash)

One of the best of the small fruiting trees. Very showy in fall with huge clusters

orange red berries.	<u>100</u>	<u>1000</u>
9-12 in. 2 yr. sdlg.	10.00	
12-18 in. 2 yr. sdlg.	14.00	70.00
18-24 in. 3 yr. sdlg.	18.00	
2-3 ft. X	40.00	200.00
3-4 ft. X	60.00	300.00

SORBUS AMERICANA

(American Mountainash)

Similar to the European variety except native of North America. Berries are darker in color than the European. One of our best small fruiting trees.

2-4 in. 1 yr. sdlg.	6.00	35.00
---------------------	------	-------

SHEPHERDIA ARGENTEA

(Buffalo berry)

An upright tall growing shrub reaching 15-18 feet. Silvery foliage. Tough and hardy making it ideal for screening undesirable views.

2-3 feet, 3 yr. sdlg.	20.00	100.00
-----------------------	-------	--------

TILIA CORDATA

(European small leaf linden)

Commonly known as basswood. The European variety has small leaves and one of our most desirable shade trees today. Rapid grower and very hardy.

3-6 in. 1 yr. sdlg.	7.50	35.00
6-9 in. 1 yr. sdlg.	12.00	60.00
2-3 ft. 3 yr. sdlg.	20.00	
4-6 in. X	6.00	30.00
6-9 in. X	10.00	60.00
9-12 in. X	14.00	80.00
12-18 in. X	20.00	

VIBURNUM ACERFOLIUM

(Mapleleaf Viburnum)

A low growing shade loving viburnum. Leaves shaped like a maple leaf, but smaller. Foliage handsome purple in fall. Jet black berries in fall.

2-3 in. 1 yr. sdlg.	5.00
---------------------	------

EVERGREEN LINERS

THE FOLLOWING ITEMS WE HAVE IN LIMITED SUPPLY AND HAVE
INDICATED THE QUANTITY AVAILABLE.

VIBURNUM DENTATUM

(Arrowwood)

An attractive upright bushy growing viburnum. Good foliage all summer. Shiny dark blue berries in fall. In universal demand in the landscape trade.

3-6 in. 1 yr. sdlg.	7.00	35.00
---------------------	------	-------

VIBURNUM LANTANA

(Wayfaring tree)

Large heavy deep green leaves. Dense grower making an excellent screen plant. Berries in fall red, later turning jet black.

3-6 in. 1 yr. sdlg.	6.00	30.00
6-9 in. 2 yr. sdlg.	7.00	40.00
9-12 in. 2 yr. sdlg.	8.00	50.00
12-18 in. 2 yr. sdlg.	14.00	
12-18 in. X	20.00	

VIBURNUM LENTAGO

(Nannyberry)

Grows to 25-30 feet. White flowers followed by black berries and attractive reddish fall color. Excellent for specimens and borders.

3-6 in. 1 yr. sdlg.	6.00	30.00
9-12 in. 2 yr. sdlg.	12.00	60.00
12-18 in. 2 yr. sdlg.	18.00	90.00

VIBURNUM OPULUS NANA

(Dwarf high bush cranberry)

A beautiful dwarf plant. Very compact growing and seldom reaches over 2 feet. Foliage turns brilliant color in fall. A highly desirable dwarf plant.

4-6 in. X	20.00
6-9 in. X	30.00

VIBURNUM PRUNIFOLIUM

(Black haw)

May be grown as a large shrub or small tree, reaching a height of 12-15 feet. White flowers, followed by small round bluish black shiny berries in fall.

2-5 in. 1 yr. sdlg.	6.00	30.00
---------------------	------	-------

VIBURNUM TRILOBA

(American highbush cranberry)

One of the best and most desirable of the large growing viburnums. A handsome shrub with attractive flowers, foliage and berries. Large clusters of fruit which begin to turn a brilliant red in late July, hanging on the plant sometimes well into the winter. Foliage becoming increasingly brilliant from late summer throughout the fall. An asset to any planting.

3-6 in. 1 yr. sdlg.	6.00	30.00
6-8 in. 1 yr. sdlg.	9.00	45.00
9-12 in. XX	20.00	150.00
12-18 in. XX	28.00	200.00

ZELKOVA SERRATA

(Japanese Keaki Tree)

Leaves have same appearance as Elm, but this Asiatic tree is free of serious insects and diseases. Grows rapidly and may be grown as either a single or multiple trunk. Makes an excellent lawn or street tree. Rapidly gaining in popularity.

6-9 in. 2 yr. sdlg.	14.00	70.00
9-12 in. 2 yr. sdlg.	16.00	85.00
12-18 in. 2 yr. sdlg.	20.00	120.00
18-24 in. 3 yr. sdlg.	30.00	

We grow deciduous and evergreen liners in large quantities. If you are interested in planting stock for game refuges, reforestation, or Christmas tree plantations, write us for special quotations. Quantity discounts can be substantial.

Also we grow planting stock under contract for large users. By anticipating your needs several years in advance still larger savings can be effected. Write us for particulars.

AMERICAN ARBOR VITAE

(Thuya occidentalis)

Our strain is grown from seed collected from upland specimen trees selected by ourselves for their graceful beauty, color and stature. Unsurpassed for windbreaks, group plantings, reforestation and no better or more economical hedge evergreen has ever been found.

	100	1000
4-6 in. 2 yr. sdlg.	4.00	20.00
6-8 in. 3 yr. sdlg.	5.00	25.00
9-12 in. 3 yr. sdlg.	6.00	30.00
12-18 in. 3 yr. sdlg.	7.00	35.00
*12-18 in. 4 yr. sdlg.	8.00	40.00
6-9 in. X	9.50	55.00
9-12 in. X	12.00	65.00
12-18 in. X	15.00	90.00
18-24 in. X	25.00	150.00
18-24 in. XX (heavy)	45.00	350.00

*The 12-18 in. 4 yr. seedlings are root pruned and heavy.

Larger sizes available for screen work. 250 trees of same size and variety at 1000 rates.

TECHNY DARK GREEN ARBOR VITAE

(Thuya occ. var. Techny)

This variety was selected by Mission Gardens of Techny, Illinois. We have never seen a better dark green. We now have it in the hands of hundreds of our customers all over the Middle West and in many eastern, western and some southern states, and have NEVER had a report of it winter-burning or changing color. Really stays dark green all winter. Our stock is genuine and from the original plants. Try it, you will really like them.

	100	1000
4-6 in. X	38.00	320.00
6-9 in. X	45.00	350.00
9-12 in. X	55.00	450.00
12-18 in. X	65.00	
9-12 in. XX	65.00	
12-18 in. XX	75.00	

—Continued on back of this page—

PYRAMIDAL ARBOR VITAE

(Thuya occ. pyramidalis)

There seems to be many strains of pyramidal arbor vitae. After many years of selection we now have a strain identified by a softer more dense foliage, and a uniform pyramidal habit of growth. You will like them.

	100	1000
6-9 in. X	35.00	300.00
9-12 in. X	45.00	350.00
12-18 in. X	50.00	400.00
12-18 in. XX	60.00	500.00
12-18 in. XX S&H	70.00	600.00
18-24 in. XX	80.00	700.00
18-24 in. XX S&H	90.00	750.00

SIBERIAN ARBOR VITAE --

(Thuya occ. wareana)

As the name implies, it is one of the most robust of this family with rugged constitution--thriving where others may fail. The foliage is dark green and the tree conical in type. The branches are short and stiff and is a rather slow-grower.

	100	1000
6-9 in. X	45.00	350.00
9-12 in. XX	65.00	
12-18 in. XX S&H	85.00	

WOODWARDS GLOBE ARBOR VITAE--

(Thuya occ. woodwardi)

The true woodwards strain of globe arbor vitae maintains its dense globe shape with little or no shearing. Foliage is a pleasing sea-green color.

	100	1000
4-6 in. X	35.00	250.00
6-9 in. X	40.00	350.00
6-9 in. XX	55.00	
10-12 in. XX S&H	75.00	

PLEASE NOTE Where a size is followed by S&H this means that grade is sheared and heavy. From this grade we can easily select well filled little specimens ideal for potting for immediate resale. Ask for special quotations.

EVERGREEN LINERS

THE FOLLOWING ITEMS WE HAVE IN LIMITED SUPPLY AND HAVE INDICATED THE QUANTITY AVAILABLE.

FIR

BALSAM FIR (*Abies balsamiae*)

100 1000

An old timer, but has come into great demand in recent years for Christmas trees. It's delightful aromatic fragrance coupled with its needle retaining quality, characteristic of all firs, has always marked the balsam as the traditional christmas tree. Nothing wrong with it as a landscape ornamental either.

2-4 in. 2 yr. sdlgs.	5.50	27.50
4-8 in. 3 yr. sdlgs.	8.00	40.00
4-7 in. X	17.00	87.50
7-10 in. X	24.00	120.00

CONCOLOR FIR (*Abies concolor*)

This is the aristocrat of all fir. Its typical fir odor is the strongest and most aromatic of any fir. Also very desirable as an ornamental, equal in demand to Colorado blue spruce. The concolor fir also commands top price as a christmas tree. Needles are charmingly long and many have the bluish cast found on colorado blue spruce. A very desirable tree.

3-5 in. 2 yr. sdlgs.	8.00	40.00
5-8 in. 3 yr. sdlgs.	12.00	60.00
2-4 in. X	14.00	70.00
4-6 in. X	19.00	95.00
6-10 in. X	24.00	120.00

DOUGLAS FIR (*Pseudotsuga taxifolia*)

A widely grown fir, valuable as an ornamental, for reforestation plantings or Christmas trees. An excellent grower, shears well and has all the prime qualities of the fir family.

3-6 in. 2 yr. sdlgs.	6.00	30.00
6-8 in. 2 yr. sdlgs.	8.00	40.00
4-6 in. X	14.00	70.00
6-9 in. X	18.00	90.00
9-12 in. X	24.00	120.00
12-18 in. X	30.00	150.00
9-12 in. XX	35.00	

JUNIPER

ANDORRA JUNIPER

(*Juniperus C. Dep. plumosa*)

One of the finest of the low growing evergreens. Seldom grows more than 15 - 18 inches high. Fall color reddish bronze. Ideal for ground cover under low windows and also as a container plant.

	100	1000
4-6 in. X	30.00	250.00
6-9 in. X	40.00	350.00
9-12 in. X	50.00	400.00
10-12 in. XX S&H	65.00	
12-15 in. XX S&H	75.00	

HETZI JUNIPER

(*Juniperus chinensis hetzi*)

Sometimes erroneously called blue pfitzer. Grows and looks like a pfitzer juniper except the foliage is more bluish and lighter colored. Also a faster and more upright grower than pfitzers juniper.

4-6 in. X	30.00	250.00
6-9 in. X	35.00	300.00
9-12 in. X	40.00	350.00
12-18 in. X	45.00	400.00
10-12 in. XX S&H	55.00	
12-15 in. XX S&H	65.00	

PFITZERS JUNIPER

(*Juniperus chin. pfitzer*)

This evergreen needs no introduction as it is probably one of the most popular of all evergreen ornamentals, and certainly the most used spreading type. Will grow well almost everywhere.

We are proud of our pfitzers juniper. Our method of rooting produces a mass of roots up the entire stem, not just at the base. This characteristic continues into the transplant.

4-6 in. X	30.00	250.00
6-9 in. X	35.00	300.00
9-12 in. X	40.00	350.00
10-12 in. XX S&H	60.00	
12-15 in. XX S&H	70.00	

S&H means sheared and heavy

SAVIN VON EHRON

(Juniperus sabinavon ehron)

Darker green than savin and grows faster. An excellent spreader. Shears readily in- to an attractive ball and is more resistant to blight than regular Savin Juniper.

	100	1000
6-9 in. X	30.00	
10-12 in. XX S&H	65.00	

RED CEDAR

(Juniperus virginiana)

This is the basic upright juniper from wh- ich many selections have been made over the years. Also used extensively as an understock for grafting junipers. Upright and conical in growth developing rather rapidly.

2-4 in. 1 yr. sdlgs.	3.00	15.00
4-6 in. 2 yr. sdlgs.	5.00	25.00
6-10 in. 2 yr. sdlgs.	7.00	35.00

JUNIPER (RED CEDAR)
UNDERSTOCKS

We specialize in the production of quality understocks. Every tree is carefully graded for caliper (3/16-1/4") and for clean straight stems. Blight free.

14.00 per 100	80.00 per 1000
---------------	----------------

LARCH

JAPANESE LARCH

(Larix leptoleptis)

Has all the pleasing characteristics of the European Larch plus more. The bark is an attractive warm brown, showing an inter- esting pattern as it scales off in narrow strips. The most handsome of all larches and a more rapid grower than even the eur- opean.

	100	1000
6-9 in X	20.00	100.00
9-12 in. X	25.00	150.00

3-4 ft. XX	65.00	
5-6 ft. X	80.00	

Continued on the back of this sheet

EUROPEAN LARCH

(Larix decidua)

An almost forgotten evergreen and whose merits are sadly neglected. One of the most graceful and attractive of all con- ifers, as well as one of the fastest gr- owing. Four to five feet per year is not uncommon. Transplants well, but is im- perative it be done before growth starts which is early. A tree that will kindle a lot of favorable comments from your cus- tomers.

	100	1000
6-9 in. 2 yr. sdlgs.	10.00	50.00
9-12 in. 2 yr. sdlgs.	15.00	75.00

These larch grow so fast, we find we have a surplus of the following grades now being offered at a big reduction. A good chance to get this valuable tree in larger sizes and at a low cost.

2-3 ft. XX	40.00
3-4 ft. XX	60.00

PINE

AUSTRIAN PINE

(Pinus nigra)

A hardy European variety that is widely planted in this country. Long grayish-green needles and dark gray bark--very attractive. An excel- lent ornamental. One of the few evergreens th- at will thrive under s moky metropolitan condi- tions.

3-5 in. 2 yr. sdlgs	5.00	25.00

2-3 ft. XX	65.00	
12-18 in. XX S&H	45.00	
18-24 in XX S&H	65.00	

Note: The European Shoot Moth which attacks all pine is distressing some areas. It is now widespread throughout most of the country.

However, we have for several years carried on a comprehensive preventative spray program on all the pine we grow. The Wisconsin State In- spection officials have never found shoot moth on any of our lining out pines, and we propose to keep it that way.

DWARF MUGHO PINE

(*Pinus mugo mughus*)

This is the true dwarf type, grown from selected imported seed.

	<u>100</u>	<u>1000</u>
2 yr. 2-3 in. sdlg.	7.00	35.00
2-4 in. X	18.00	90.00

6-9 in. X	35.00	175.00
9-12 in. XX	65.00	

BULL OR WESTERN PINE

(*Pinus ponderosa*)

One of the most important pines in the Western states. A good timber tree and an excellent ornamental. Needles dark green, 5-10 in. long. Grows to 150 feet and over. Also ideal as a long-needled Christmas tree. Makes excellent table top Christmas trees.

3-6 in. 2 yr. sdlg.	5.00	25.00
6-9 in. 3 yr. sdlg.	6.00	30.00
9-12 in. 3 yr. sdlg.	8.00	40.00

12-18 in. X	20.00	110.00
9-12 in. XX	25.00	150.00

MONTANA MUGHO PINE

(*Pinus montana mughus*)

Much faster and larger growing than our true dwarf type, and of course not so compact but can easily be made up by normal shearing practices. It will make up 50% faster than a dwarf mugh.

2-4 in. 2 yr. sdlg.	6.00	30.00
6-9 in. X	30.00	
9-12 in. X	40.00	
9-12 in. XX	60.00	300.00
12-18 in. XX	90.00	

TSUGA

TSUGA CANADENSIS

(Canadian Hemlock)

Tall growing graceful evergreen with slender horizontal branches. Hardy, but does prefer protection from winter winds and sun. Excellent for shady spots.

3-6 in. 2 yr. sdlg.	9.50	50.00
6-9 in. 3 yr. sdlg.	14.00	75.00

NORWAY OR RED PINE

(*Pinus resinosa*)

A popular pine native of Great Lakes section. Needles 4-6 inches long, dark green and lustrous. Grows to 75-150 feet and somewhat pyramidal in habit. Originally a timber tree but is being used more as an ornamental as well as a Christmas tree.

	<u>100</u>	<u>1000</u>
2-4 in. 2 yr. sdlg.	4.00	20.00
4-6 in. X	9.00	50.00

12-18 in. X	18.00	90.00
12-18 in. XX	25.00	135.00

SCOTCH PINE

(*Pinus sylvestris*)

One of the most profitable and popular pines for Christmas trees. Grows fast, shears well, a salable Christmas tree in a minimum of time. Needles short 2-4 inches bluish green. We can supply the French Dark Green strain, most desirable for Christmas trees. Its reddish bark and excellent stem character makes it a desirable ornamental.

2-4 in. 2 yr. sdlg.	4.00	20.00

PRECISION PLANTING

SPRUCE

BLACK HILLS SPRUCE

(Picea glauca densata)

Our Black Hills are grown from seed collected in Black Hills and are known to be of an excellent strain. A good Black Hills Spruce is a compact symmetrical grower. Foliage varies from green to a bluish tint. Makes an excellent lawn specimen.

	100	1000
2-4 in. 3 yr. sdlgs.	5.00	25.00

COLORADO BLUE SPRUCE

(Picea pungens glauca)

We are justly proud of our Colorado Blue Spruce in all sizes. We pay a premium for select seed and have been growing it long enough from the same source to know we are getting what we are paying for--a better strain of Colorado Blue Spruce, which will run a higher percentage of blue trees. Ours will average from 20-30%.

2-4 in. 2 yr. sdlgs.	3.00	25.00

9-12 in. XX	35.00	300.00
12-18 in. XX	60.00	

S & H following a grade means sheared and heavy. From this grade we can select perfect little specimens, ideal to pot for immediate sale. Cost very little more. Write us for special prices.

NORWAY SPRUCE

(Picea abies)

Fastest growing of any spruce. Grows well on a variety of soils. Hardy over a large range. Produces a large fine looking tree, excellent for shelter belts, windbreaks, reforestation, or Christmas trees. Shears well. Best understock for grafting all horticultural varieties of spruce.

TABLE XMAS TREES

Many of our S & H (sheared and heavy) Black hills spruce, White spruce and Norway spruce in the 12-18 and 18-24 in. sizes are perfect little specimens, which would make splendid table christmas trees. If you are dealing in this type of merchandise, write us for special quotations.

Table christmas trees for apartments are rapidly becoming very popular, and it has been difficult to secure small well shaped trees. Ours will fill the need perfectly. Cash in on this profitable market.

Evergreen Nursery Co., Sturgeon Bay, Wisconsin

THE FOLLOWING ITEMS WE HAVE IN LIMITED SUPPLY AND HAVE INDICATED THE QUANTITY AVAILABLE.

TAXUS

SPREADING YEW

(Taxus cuspidata)

The most popular of the spreading yew. Branches well from the bottom. Generally grows more wider than tall. One of the most used varieties of Taxus for foundation plantings.

	<u>100</u>	<u>1000</u>
4-6 in. X	30.00	250.00
6-9 in. X	35.00	300.00
9-12 in. X	40.00	350.00
12-18 in. X	50.00	450.00
9-12 in. XX	55.00	500.00

DWARF SPREADING YEW

(Taxus cuspidata nana)

The best of the dwarf yews. Very slow growing with heavy dark green foliage. Perfect for spots where it is important to keep size of plant to a minimum.

4-6 in. X	40.00
-----------	-------

UPRIGHT YEW

(Taxus cuspidata capitata)

This is the only yew best grown from seed. Pyramidal in habit of growth with a broad base. Stands shearing well.

3-6 in. 2 yr. sdls.	12.00	60.00
2-4 in. X	20.00	100.00
4-6 in. X	25.00	150.00
6-9 in. X	30.00	200.00

BROWNS YEW

(Taxus media browni)

One of the most versatile taxus. It can be easily sheared to less than 18 inches or will grow to 6 or more feet. Does well in both sun and shade. Dark green foliage.

4-6 in. X	30.00	250.00
6-9 in. X	40.00	350.00
9-12 in. X	60.00	

Note: When any item is followed by S&H, it means that grade has been sheared and is heavy. If you wish a further selection from this grade of plants suitable for potting and immediate retail sales write for quotation.

DENSIFORMIS YEW

(Taxus cuspidata densiformis)

A dense form of the spreading taxus cuspidata. Requires less shearing.

	<u>100</u>	<u>1000</u>
4-6 in. X	35.00	300.00
6-9 in. X	40.00	350.00
9-12 in. X	50.00	450.00

HATFIELD YEW

(Taxus media hatfield)

A very interesting yew. Its growing habits produce a tree that is a trifle wider at the top than at the bottom, giving a slight vase form. A bushy heavy grower.

4-6 in. X	30.00	250.00
6-9 in. X	40.00	350.00
9-12 in. X	50.00	450.00

HICKS YEW

(Taxus media hicksi)

A good columnar form with vertical branches. One of the best of the tall growing taxus. Rich glossy green foliage with red berries. Very hardy.

4-6 in. X	30.00	250.00
6-9 in. X	35.00	300.00
9-12 in. X	40.00	350.00
12-18 in. X	50.00	

HILLS PYRAMIDAL YEW

(Taxus pyramidalis hilli)

An old timer, but still an excellent yew for an upright type. Excellent for hedges.

4-6 in. X	30.00	250.00
6-9 in. X	35.00	300.00
9-12 in. X	40.00	350.00

INTERMEDIATE YEW

(Taxus intermedia)

Similar to cuspidata, but grows a little more upright than cuspidata.

4-6 in. X	35.00	300.00
6-9 in. X	40.00	350.00
9-12 in. X	45.00

Note: When any item is followed by S&H, it means that grade has been sheared and is heavy. If you wish a further selection from this grade of plants suitable for potting and immediate retail sales write for quotation.

Evergreen Nursery Co.
Sturgeon Bay, Wisconsin
— Est. 1864 —

BIG PROFITS IN GROWING CHRISTMAS TREES_____

Approximately 50 to 60 million Christmas trees are used in this country annually, and the growing of them in commercial plantations is getting to be a very lucrative business. Good planting stock is imperative for success. We grow large quantities for this very purpose and can supply quality trees at reasonable prices. Plant a few acres every year and you will soon have a nice annual income. We would be happy to advise you on soil, cultural practices, etc.

Seedlings are often planted for Christmas trees in an attempt to save money. It is false economy. True, seedlings cost less, but as good survival can never be expected from seedlings as from transplanted stock. The few extra cents a good transplant costs brings tremendous dividends in excellent survival. The need for replanting is eliminated, and salable trees can be grown two to three years sooner than if seedlings were used. The varieties listed below are the most used for Christmas tree planting.

The sizes listed below have wider variance than the same variety offered elsewhere in this list. By saving cost of grading we can offer them cheaper, although they come from the same block as closely graded trees.

You will note we are offering seedlings as well as transplants, in event you still prefer them. Also they could be transplanted in a little nursery, growing them for a year or two before planting them on their permanent plantation.

Minimum order 500

SCOTCH PINE

This is probably one of the most planted varieties for Christmas trees. Easy to grow and reaches salable size probably sooner than any other variety. Our Scotch Pine are all of the french dark green variety, which is the most desirable strain for that purpose.

	<u>1000</u>
2 yr. seedlings, 3-6 in.	18.00
2 yr. seedlings, 6-9 in.	25.00
3 yr. transplants, 4-8 in.	45.00
4 yr. transplants, 8-18 in.	69.00
5 yr. transplants, 18-30 in.	95.00

NORWAY PINE

Much longer needles than Scotch Pine and considered by many Christmas tree dealers to be ideal for flocking. Doesn't grow quite as fast as Scotch Pine, but still an excellent grower.

2 yr. seedlings, 2-4 in.	18.00
3 yr. transplants, 3-7 in.	48.00
4 yr. transplants, 6-14 in.	79.00

PONDEROSA PINE

Another excellent pine with long needles. Graceful and compact growing. Also an excellent pine for flocking or to sell as a long needled pine.

2 yr. seedlings, 2-5 in.	16.00
3 yr. seedlings, 6-12 in.	28.00
4 yr. transplants, 8-18 in.	75.00

—OVER—

CHRISTMAS TREE PLANTING STOCK
CONTAINER STOCK

NORWAY SPRUCE

The fastest growing of all spruce. Will grow about as fast as Scotch Pine.

3 year, 6-12 in. seedlings	26.00
3 year, 4-8 in. transplants	45.00
4 year, 8-14 in. transplants	69.00

WHITE SPRUCE

The most popular variety of spruce for Christmas tree planting. Grows and shears well. Foliage has a bluish tint.

3 year transplants, 3-7 in.	45.00
4 year transplants, 6-14 in.	70.00

BALSAM FIR

The balsam fir is the traditional Christmas tree, and will eventually be the most planted variety. Always has been in top demand on the Christmas tree market, but so few plantation grown trees are available and the wild trees are of poor quality. It's delightful aromatic fragrance and needle retaining characteristics make this variety one of the most desirable of all Christmas trees. Plant now and cash in on this profitable market. Balsam fir planting stock is in short supply country over.

2 year seedlings, 2-4 in.	25.00
3 year transplants, 3-5 in.	60.00
4 year transplants, 4-7 in.	90.00
5 year transplants, 5-10 in.	110.00

No quantity discount on Balsam Fir

DOUGLAS FIR

Another good fir with all the prime qualities of the fir family. Shears and grows well. Should be grown in every northern Christmas tree plantation.

2 year seedlings, 3-6 in.	25.00
3 year transplants, 3-7 in.	58.00
4 year transplants, 6-12 in.	90.00

CONCOLOR FIR

This is the aristocrat of all fir. Its typical fir fragrance is the strongest and most aromatic of all firs. Grows slower than either Balsam or Douglas fir, but has always commanded a top premium price on the Christmas tree market. Needles are soft and charmingly long and many trees have a bluish cast. You will fall in love with this tree.

2 year seedlings, 2-5 in.	35.00
3 year transplants, 3-5 in.	65.00
4 year transplants, 5-10 in.	95.00

— CONTAINER STOCK —

We have been growing container stock for a number of years, and feel we have learned many things about container plants.

1. After considerable observation and experience we came to the conclusion several years ago that plants grown more than one year in containers became pot bound which seriously affected their growth and root spread when transplanted from this container. To remedy this, the majority of our container plants are field grown where the roots have had plenty of room to expand. Some we grow in metal containers in our container nursery for only one growing season, and then transfer them to new Keiding paper mache pots which makes a very merchantable and attractive item.

2. We believe, except in a few cases such as mums, that a 1 gallon container is entirely too small, especially for evergreens. We now put all evergreens in a #8 Keiding paper mache pot, which is approximately 2 gallons. All pots are new, clean and highly merchantable.

3. The old method of using a soil for a potting mix frequently becomes hard and pulls away from the edges of the container unless watered with accurate regularity. We have corrected that by using shredded decomposed bark for a soil mix. It is much lighter than soil, never becomes hard, excess water readily drains away and eliminating the problem of poor drainage. It also furnishes the plant with an abundance of organic matter. The plant grows fabulous roots in this mix.

All our container plants have been twice transplanted, and sheared to perfect little specimen plants. They may be planted, pot and all, making it easy for the purchaser. Also each plant has wired to it a yellow tag giving the name of the plant together with planting and cultural instructions.

Our container plants are real money makers for you!

Container plants are difficult to ship common carrier. We have our own truck, completely enclosed fitted with specially designed shelving to efficiently, rapidly and economically transport container stock. A minimum load is 900 and a maximum load is 1100 containers. Many of our customers get together with others nearby and get a full load between them. Also they may be called for at the nursery.

PRICES AND VARIETIES ON BACK THIS SHEET

CONTAINER STOCK

All plants unless otherwise specified are in new #8 Keiding paper mache pots which are approximately 2 gallons in size.

Our many years of experience selling this kind of merchandise has taught us which are the best sellers, and these varieties top the list.

EVERGREENS

	<u>size</u>	<u>each</u>
Pfitzers Juniper-----	10-12 in.	1.00

There are hundreds of varieties of shrubs and shade trees, but these we are listing are the most popular and best sellers to the market buying this type of merchandise.

If you do not find listed your needs, write us as we have a much larger assortment available in limited quantities. Furthermore, we can arrange to put into containers just about any variety of plant you may wish.

SURPLUS STOCK

Every nurseryman is confronted with surplus items from time to time. Frequently these items can be used by some one to profitable advantage. We have a few such items, and in order to "clear the decks" we are offering them at a real sacrifice. Possibly you can make some handsome profits on some of these items. Look them over carefully.

American arbor vitae

A real steal! While this is a surplus item with us, it is strictly first class merchandise, growing in nursery rows, and not in beds. They are field grown transplants. Nothing surpasses the american arbor vitae for sheared hedges, group and background plantings and screen work. This tree is unusually free from plant pests and diseases. It is also excellent for woodlots and windbreaks. Also enjoys a good market in the production of cedar fence posts (American arbor vitae is white cedar) You should have some, especially at these prices. In the interest of fast removal and low cost of digging, and hence low cost to you, we are offering them at block run only. They will run well up to this grade, with the majority by far in the upper size.

American arbor vitae 15-30 inches transplants \$68.00 per 1000

Because of the low prices at which we are offering these trees, and because of their large sizes, we are sure it is obvious that we cannot sell in small quantities nor can we box them for shipment at these prices. Therefore 250 trees is the minimum order, and if wanted boxed for shipment, we will do so at \$15.00 per 1000, or 2¢ per tree if order is less than 1000. We can also bale them for pick up here at the nursery or for shipment short distances at \$10.00 per 1000 or 1 ½ ¢ per tree in lesser quantities. If you wish to call for them at the nursery with your own truck, we will pack in your truck in bulk at no extra charge. This pertains to all surplus items offered on this sheet.

White spruce.

These are also in field rows, but are somewhat crowded, and consequently thin. However, they have been root pruned twice, so the roots are good. Likewise the color is excellent. They would be very satisfactory for windbreaks, woodlots, reforestation or christmas tree plantations. They are just large enough so they would thrive in competition with brush, grasses or weeds. It is also valuable as a timber tree or for pulpwood.

White Spruce 1½-3 feet field grown transplants \$68.00 per 1000

ADDITIONAL SURPLUS ITEMS _ ALL FIELD GROWN TRANSPLANTS

Scotch Pine 1½ - 3 feet field grown transplants \$68.00 per 1000

Black Hills Spruce 1½-2½ feet field grown trans. 68.00 per 1000

Ponderosa Pine 1-1½ feet field grown trans. 68.00 per 1000
